University Homes

Q We have *full control* of this *Sub-Division* which is within the *City Limits* and has recently been put on the Market. This property is *high and dry*, and has all been seeded with Canadian and Kentucky lawn blue grass. It is adjoining *Eighth Street*, which has been made exceptionally wide in anticipation of using it as a *Street Railway Belt Line Route* connection with the street to *University Grounds* and on to *Sutherland*. This is a most ideal *Residential District* owing to its close proximity to the *University*. There are still a few Blocks to be Sold at Prices and Terms which will undoubtedly appeal to the Shrewd Investor.

Westmount Sub-Division

Q We have also a number of *Selected Lots in Westmount Sub-Division*, all high and dry, and splendidly located. Investors will make no mistake in securing some of either of these most desirable properties, which in a short time will certainly bring a handsome profit on the money invested.

AND A

CLASSIFIED BUSINESS DIRECTORY

VOL. IV.

PRICE \$4.50

Compiled and Published by

HENDERSON DIRECTORIES LIMITED
279 GARRY STREET, WINNIPEG, MAN.

Preface

In presenting this volume, the fourth edition of the Saskatoon City Directory, the assurance is offered that the work is equal in every respect to any work of its character, not excepting the largest metropolitan directories, for this directory possesses all the features of the largest directories that are regarded as meritorious.

The Saskatoon Directory has had the advantage of a large force of trained, competent and experienced directory men, and every facility was provided and maintained for making the work a model of completeness and accuracy.

The City Directory is a matter of great importance to the community, for it clearly portrays the city and its people and institutions, and the growth and progress as no other work can. Every individual is interested and represented in it, and it is a matter of vital importance that they be accurately represented.

One of the useful features of a directory is its annual round-up and presentation of the progress of the city. It is an important matter to every individual, merchant, manufacturer and everyone interested in the welfare of the city to learn something of its progress during the year, and the data set forth in the Directory is like the merchants' trial balance. The Government realizes this, for it spends millions of dollars at regularly stated periods to gather the information that is furnished by directory publishers. It is highly pleasing to the publishers to point to the evident growth and prosperity that are apparent in every locality, even to the casual observer.

The publishers are glad to express their thanks for the courtesies extended to their employees and for the liberal patronage bestowed upon the work.

Very truly,

HENDERSON DIRECTORIES LTD.

July, 1911.

City of Saskatoon

Geographical Location

To locate the City of Saskatoon (incorporated 29th May, 1906) it is merely necessary to place the finger on the centre of any reliable map of Western Canada. It will then be seen that Saskatoon is not only in the centre of the West, but also in the very middle of the Province of Saskatchewan; and, at the same time, right in the heart of the Great Hard Wheat Belt. In other words, Saskatoon is, in a very real sense, The Centre of Centres.

Wholesale Distributing Territory

Another feature still further enhancing the City's unique geographical location is that she is far distant from any other large point. Consequently, the surrounding territory is undisputably hers; and, she has the competing railway facilities and distributing freight rates to control it absolutely.

As the above mentioned Distributing Territory extends to about 45,000 square miles within which there are, even now, upwards of 200 thriving, growing towns and villages, it is not remarkable that new firms are continually being added to the large list of leading wholesalers already established and handling an astonishing volume of business.

Railway Facilities

Naturally, the strategic location of the City has not been overlooked by the three great railway companies which have for some years past made it the centre of the greatest railway construction in the Dominion. The Canadian Pacific, Canadian Northern and Grand Trunk Pacific,—all are in evidence. Each company has its own steel and concrete bridge spanning the big river at Saskatoon. In all, there are four bridges at Saskatoon, three of which were building at the self-same time, a fact indicating the extraordinary character of the City's development.

Mail Service

Nine different operating railway outlets radiate from Saskatoon. Sixteen passenger trains daily arrive and depart at her three railway stations, while twenty mails are each day received and distributed at her post office.

Growth

In the accepted sense, Saskatoon has no past: There are lads and lasses at school today who saw and lived through the beginning of things, and can therefore tell of all there is to tell. Within seven

years, from a slender sprinkling of shacks with their 113 dwellers, has sprung the solid City of Saskatoon with its thriving, prosperous population now numbering about 17,000 and increasing daily with almost incredible rapidity.

From the foregoing, it will be obvious that no city in Canada, has ever, in any sense, approached Saskatoon's phenomenal record of development, and that in this respect she therefore stands alone.

Crop-sureness of Territory

Apart entirely from a singularly favorable geographical location, other recommendations equally important are playing their part in the above remarkable progress. One of such is the fertility of the vast territory tributary to Saskatoon and its enviable record for crop-sureness now so conclusively demonstrated.

Natural Beauties

Another most potent factor is that Saskatoon's exquisite natural beauty is proverbial throughout the West. Its appeal to the stranger is instant, irresistible,—and all the more charming, because so unexpected. Perhaps, the main secret of this charm is the presence of the magnificent South Saskatchewan River that wends its way between beautifully wooded banks, right through the City's heart, not merely providing unending delight for the eye, but also affording an inexhaustible supply of pure water.

Educational

With her central location, exceptional railway facilities, land fertility and exquisite natural charm, it is scarcely to be wondered that Saskatoon was selected as the seat of the University of Saskatchewan with its Agricultural College and College Farm, which institutions absorb an area of one thousand, three hundred and thirty-three acres, and are planned to ultimately accommodate about five thousand students. The foundation stone of a portion of the buildings was laid by Sir Wilfrid Laurier, on 29th June, 1910, and work is being rushed with all dispatch. No expense will be spared toward making these buildings thoroughly modern in all respects and as imposing as any of the kind in the Dominion. Classes are meantime being held in temporary premises, while the College Farm—now all fenced and under cultivation yielded a magnificent crop last season.

With the University,—vested with the sole degree conferring power (excepting theological) in the Province,—the Collegiate Institute and five large modern schools, Saskatoon's educational facilities are quite exceptional and cannot but appeal strongly to parents. This, for the reason that their children may commence in kindergarten; then proceed through public school and Collegiate Institute to finally emerge with a degree from the University—and all without having to leave the City of Saskatoon! Particulars concerning University classes, fees, etc., may be had on application to President W. C. Murray, Saskatoon.

Industries and Power

The industrial life of the City which is already well awakened and developing most encouragingly. Quite a number of important manufacturing concerns are already established, including a thousand barrel per day flour mill. There is an exceedingly favorable opening at Saskatoon for any of the many industries that may be profitably operated in the west.

Public Spirit

Since the first, the policy of the City Fathers has been essentially progressive. They have been impelled in all their efforts by that dominant sense of good citizenship which precludes the very faintest shadow of anything resembling graft. That civic affairs have been most capably handled is evident from the high premium at which Saskatoon bonds are quoted on the London market.

Municipal Ownership

The City owns and operates its own light and power plants, and also its hospital which was the first municipality owned and controlled institution of its kind in Western Canada, and the second in the entire Dominion. It is interesting to remark that as municipal undertakings, the handling of these utilities has not merely proven profitable, but entirely satisfactory in every way.

Water, Sewers, Sidewalks, Etc.

An immense amount of public work is continually in progress; mile upon mile of cement sidewalks, water mains, sewers, etc., have already been laid, while the programme for the present year is vastly greater and more important than anything in the past. Some indication of this may be gathered from the fact that the contract placed by Saskatoon this spring for twelve miles of cement sidewalk is the largest ever given out by any western city.

Comparative Building Statistics

Probably, the building statistics constitute the best and most definite indication of Saskatoon's phenomenal growth:—

Building Statistics for 1908	\$ 115,623
Building Statistics for 1909	1,002,905
Building Statistics for 1910	2,817,771

The building for 1911 promises to far exceed that of 1910, which may be gathered from the fact that for April, 1911, alone, building amounted to \$1,226,840.

Assessment

Another sound criterion of the development of any city is the growth of its assessment. In this line, Saskatoon's figures will be found interesting:—

Assessment 1906.....	\$ 2,517,145
“ 1907.....	6,621,327
“ 1908.....	7,450,135
“ 1909.....	8,156,357
“ 1910.....	10,748,639
“ 1911	(about) 18,000.00

Banks

The number of banks located at any point may be taken as a fair gauge of the commercial importance of such point: Saskatoon has fourteen chartered banks and three trust companies doing a banking business. In addition, all the leading trust, loan and insurance companies are duly in evidence.

Newspapers

Another convincing indication of general up-to-dateness is the number and quality of Saskatoon's newspapers, viz.:

The Daily Phoenix	The Evening Capital
The Weekly Phoenix	The Weekly Capital
The Saturday Press	

It is easily within the mark to state that no city of its size in the entire Dominion is today issuing sheets more creditable than the above from every accepted standpoint. Both dailies receive the fullest line of the identical press dispatches going to leading papers in largest cities. The Phoenix greets you on your breakfast plate, the Capital awaits you at supertime.

Prosperity

Saskatoon's prosperity is phenomenal. In her entire history— notwithstanding the great financial crisis of 1907, and the somewhat indifferent cropping conditions which affected the whole West the year following—she has not yet known a single commercial failure. Such a record is scarcely surprising when one considers the fertility and sure-cropping character of her vast tributary territory.

Opportunities

As to openings commercial, industrial and otherwise, investigation will show that no Western city offers a larger, better assortment than Saskatoon. Nothing is more literally true than this. The Commissioner, Board of Trade, will be glad to supply all definite information.

In conclusion, so far as concerns climate, society and every other beneficial influence affecting these closely allied conditions—human prosperity and happiness—the City of Saskatoon is peculiarly blest. This, the briefest sojourn within her hospitable gates will more than confirm.

27—	Corner 26th Street and Avenue E
28—	Corner 29th Street and Avenue B
43—	Placed in Central Fire Hall (Pulled on Telephone Alarm)

City Pumping Station and Power House are on west side of the river at the south extremity of Avenue H.

The standing pressure is derived from standpipe located corner 11th Street and Broadway, and the registered average is from 60 to 65 lbs., which is ample for domestic purposes and small conflagrations. In case of large fire the Fire Chief upon his arrival immediately telephones the Pumping Station for increased pressures. The warning is then given to the man in charge of the standpipe by the blowing of a large whistle, and the response is made by turning the key and thereby stopping flow of water going in to the standpipe, which causes the pressure to come direct from the pumps.

ENGINEERING DEPARTMENT

City Engineer—George T. Clark

Asst. City Engineer—Junius Jonsson

Inspector of Private Services—E. B. Preston

Draftsman—M. H. Hall

The Engineering Department of the City has charge of the installation of all pumping machinery, the installation and maintenance of all water and sewer mains, house sewer and waterworks service connections, the construction and maintenance of concrete pavements and plank sidewalks, the opening up and maintenance of streets and the construction and maintenance of bridges and subways.

Statistics

There are 8,440 acres within the City Limits and of this area 285 acres are taken up in parks.

There are approximately 40 miles of graded streets, 20.75 miles of concrete sidewalks, and 8.20 miles of plank walks. When this year's contracts are completed there will be installed 24 miles of water mains, 22.65 miles of sewers, 252 fire hydrants, 1 sedimentation tank, and 2 steel stand pipes with joint capacity of 350,000 gallons.

There are 3 railway bridges and one traffic bridge across the Saskatchewan river at Saskatoon. Three of these bridges have foot attachments for pedestrian traffic.

CITY WATER WORKS AND ELECTRICAL DEPARTMENT

Collector—F. C. Bush

The plant consists of: Three engines and generators, viz.:—

350 H.P.	225 K.W.
180 H.P.	125 K.W.
750 H.P.	500 K.W.

2,200 volts A.C. direct connected two phase generators, 2 Condensers and air pumps, 1 Tandem compound 850 gallons duplex press pumps, 1 high duty pump 850 gallons, 2,850 gallon deep well pumps, which pump through the condensers and into a 30x12x12 ft. tank, thereby supplying the city and condensing the water for the entire plant. Three 125 H.P. boilers and three 250 H.P. boilers with the necessary feed pumps. Hopps heater, injectors, etc.

The reservoir on Nutana Hill has a capacity of 180,000 gallons. A domestic pressure is maintained at 80 lbs. while for fire purposes the pressure is raised to 125 lbs. per square inch. There are 200 fire hydrants throughout the city.

There are 20 miles of lines of electric wires, 55 series A, B. and Westinghouse arc lamps. About 1200 residences, offices and other buildings are connected and about 3000 incandescent lamps installed.

BOARD OF TRADE

President—Malcolm Isbister

Vice-President—Major H. Acheson

Commissioner—F. Maclure Sclanders

Treasurer—T. F. Calder

Council—W. A. Coulthard, A. H. Hanson, J. H. Holmes, A. F. Lenon, Robert McIntosh, R. H. Potter, C. T. Stacey, A. J. E. Sumner, Ald. G. H. Clare and City Commissioner E. M. Snell.

PUBLIC SCHOOLS

The School District of Saskatoon comprises, beside the City of Saskatoon, all lands in sections 7 to 36, in township 36, range 5 West Third Meridian, and sections 1 to 6 in township 37-5 W 3, a district six miles square, with an estimated population in 1910 of about 15,000. Beside the schools erected in the City, there is one school in the Village of Sutherland on section 35-36-5, where there is a population of some 500 souls. The whole district is managed by one school board of five members.

Chairman of Board—J. E. Paul, merchant

Trustees—J. E. Paul, J. Russell Wilson, Joseph H. Holmes, A. J. Sparling, J. D. Macdonald

Secretary-Treasurer—William B. Bate

Superintendent of City Schools—Herbert H. Smith, M.A.

Building Commissioner—Robert Blackwood

SYSTEM OF STREET NAMES AND NUMBERING

Streets run east and west

Avenues run north and south.

The townsite has been laid out allowing 18 streets in Nutana, south of the Saskatchewan River. Eighth to Eighteenth Streets being within the Corporation limits; while First Street to Seventh Street lies south of the southern city limits. First Street to Eighteenth Street are in Nutana; Nineteenth Street being the first street on the west side of the River, East of the C. N. R. tracks and west of the River streets are numbered from Nineteenth to Twenty-sixth, West of the C. N. R. tracks in Riversdale streets number north from Eleventh to Thirty-third, the northern city limits.

With the Avenues the C. N. R. tracks are the dividing line. Avenues First, Second, Third, Fourth and Fifth running north and south and paralleling the C. N. R. tracks to the east are arranged numerically from the C. N. R. to the Saskatchewan River. West of the C. N. R. avenues are arranged alphabetically from Avenue A to Avenue P, the western city limits.

In Nutana the street information is taken east from the Saskatchewan River to eastern city limits. On the Avenues north from 8th Street the southern city limits. The system of house numbering adopted by various cities throughout the continent known as the Decimal or Philadelphia system, viz., an even hundred numbers are allotted to each block, the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on a street or avenue.

On the Avenues, which run north and south, a number is allotted for every 12 feet and on streets running east and west, a number is allotted for every 15 feet.

Odd numbers on the east and north sides. Even numbers on the west and south sides.

Advertise Your . . . Good Things!

¶ Many a limping business is kept from healthful development by the firm's morbid aversion to publicity.

¶ Perhaps they are honestly so conscious of the excellence of their wares that they expect the busy world to search them out. But the busy world hasn't time.

¶ If you have a good thing to sell, proclaim it. The world wants good things, but it can't discover them in hiding places. Bring them into the open market by advertising them.

Black Letters

¶ Those names appearing in BLACK LETTERS in this Directory represent the energy and push of the City. It is a pleasure for the Publishers to have the opportunity of making the public acquainted with them through these pages.

¶ Those in BLACK LETTERS are the people who accomplish the wonders in business here and make the city what it is. They recognize and support all public necessities and things needful to improve and serve a city of this magnitude. They are not drones and sponges who never support anything and gain by others' hard work and money.

¶ When you patronize those in BLACK LETTERS you patronize men and firms who will patronize you in the same broad manner in which you patronize them.

REMEMBER

The CITY DIRECTORY is the most effective and most economical method of reaching all the people all the time.

¶ *Those who buy without looking at the list of those who sell do themselves a great injustice.*

¶ *The CLASSIFIED LISTS in the BUSINESS DIRECTORY form the very best BUYER'S GUIDE on earth.*

¶ *A modern, systematized, up-to-date method of getting what you want.*
